RE: Mending Faces

Dear Esclamado Award Committee:

The Rotary Club of Kalibo has been a proud sponsor of the four Mending Faces missions to Kalibo. We highly recommend Mending Faces for the Alex Esclamado Award for Community Service. While I am sure that you have received extensive information about their extraordinary medical mission, the Rotary Club of Kalibo would like to document their efforts at performing surgery to hundreds of children in Aklan and neighboring provinces with cleft lip and cleft palate. These surgeries have change lives of the children, assuring them of a bright future. Mending Faces has also extended generosity to the school children of Aklan through their dental education program and supported various Rotary efforts including providing funds for a barangay school library and donating an air conditioner to the Rotary Club of Kalibo Training and Livelihood Center.

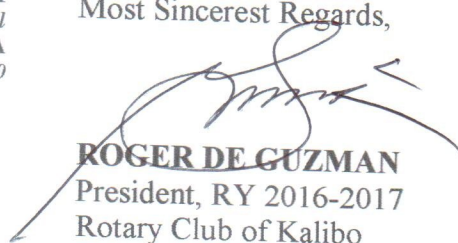

Mending Faces is not simply a medical mission but a group that the Rotary Club of Kalibo is proud to call friends. Besides doing medical missions, Mending Faces takes time to care the communities in which they work. It has conducted numerous dental education events at schools giving out toothbrushes and toothpaste plus dental information. A great treat for all involved, in particular the hundreds of kids who have a special day.

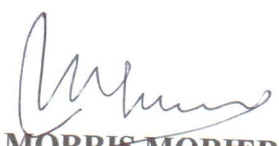

Mending Faces coordinated with Rotary Club of Kalibo to manage the equipping of the Post Anesthesia Care Unit (PACU), a life saving facility that was desperately needed at the Hospital.

Kalibo has been fortunate to be the location of a number of medical missions but Mending Faces is exceptional because the group works so hard to benefit the community.

The Rotary Club of Kalibo extends its wholehearted endorsement to the nomination of Mending Faces for the Alex Esclamado Memorial Award for Community Services.

Most Sincerest Regards,

ROGER DE GUZMAN
President, RY 2016-2017
Rotary Club of Kalibo

MORRIS MORIER
Secretary, RY 2016-2017
Rotary Club of Kalibo
